ROWLAND ASORWOE

FULL STACK DEVELOPER

📍 Ho, Ghana 📧 rorosorwoe@gmail.com 📱 +233 53 923 9619 / +233 20 393 3334

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with a Bachelor of Science in Computer Science from KNUST and a strong blend of software engineering, technical instruction, and project management experience. Proficient in building responsive web applications using modern JavaScript/TypeScript ecosystems, Python, and robust backend technologies. Backed by a Cisco Junior Cybersecurity Analyst certification and hands-on expertise in secure coding principles, database management, and cloud deployment. Adept at translating complex business needs into scalable, secure, and user-friendly digital solutions.

TECHNICAL SKILLS

FRONTEND	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Web Design
BACKEND	Node.js, Express.js, Python, REST APIs, Authentication (JWT, OAuth)
DATABASES	PostgreSQL, MongoDB, MySQL, Firebase
CLOUD & DEVOPS	Git, GitHub, Docker, Vercel, Netlify, Render, Railway
TESTING & TOOLS	Jest, Postman, Cypress
SECURITY & CORE	OWASP Top 10, Secure Authentication, Input Validation, JWT Security, Network Fundamentals, MVC Architecture, Agile Development

PROFESSIONAL EXPERIENCE

Web Technologies Instructor
January 2022 – September 2023

Ho Node HUB • *Ho, Ghana*

- Designed and taught structured beginner-friendly curricula for HTML5, CSS3, and core web development principles.
- Mentored aspiring developers through practical project execution, code reviews, and deployment workflows (Vercel/ Netlify).
- Championed digital inclusion by training women in rural communities on foundational digital literacy and ICT tools.

Manager
March 2024 – Present

Serinity Acers • *Ho, Ghana*

- Direct day-to-day business operations, workflow planning, and cross-functional resource allocation.
- Modernized administrative frameworks by implementing digital record management systems to optimize efficiency.

Field Officer
October 2024 – September 2025

Ghana Statistical Service • *Ashanti Kpoeta*

- Executed data collection and rigorous validation protocols across national statistical datasets.
- Leveraged digital data collection platforms to safeguard data accuracy, consistency, and structural integrity.

Field Officer
January 2024 – March 2024

Ghana Statistical Service • *Dzodze*

- Conducted nationwide business surveys and coordinated closely with regional teams to meet strict processing deadlines.
- Performed deep-dive verification, data cleansing, and anomaly resolution prior to final dataset submission.

Administrative Assistant
September 2020 – August 2021

University of Health and Allied Sciences (UHAS) • *Ho, Ghana*

- Maintained centralized institutional records and managed HRMS data entry protocols with high precision.
- Coordinated high-profile institutional events, workshops, and official cross-departmental correspondence.

EDUCATION & CERTIFICATIONS

Bachelor of Science (BSc) in Computer Science
Graduated: June 2020

Kwame Nkrumah University of Science and Technology (KNUST)

Dissertation: Classification of Chest X-rays using Machine Learning

Junior Cybersecurity Analyst Career Pathway 2025
Cisco Networking Academy

KEY PROJECTS

AI Chest X-ray Classification | **Python, TensorFlow, CNN, Machine Learning**
Developed a deep learning model for medical image classification, handling data preprocessing, training, and graphical prediction visualization.

Full Stack Task Management System | **React, Node.js, Express, MongoDB, JWT**
Engineered an end-to-end task manager featuring secure user authentication, complete CRUD operations, a responsive dashboard, and a robust REST API.

E-Commerce Platform | **React, Express, PostgreSQL, Stripe API**
Built a scalable marketplace application featuring dynamic product management, a functional shopping cart, secure order tracking, and live payment processing.

Responsive Portfolio Website | **HTML5, CSS3, JavaScript**
Designed a mobile-first, modern portfolio to display technical projects with an interactive contact form.

ADDITIONAL INFORMATION

SOFT SKILLS: Problem Solving, Team Collaboration, Technical Communication, Critical Thinking, Leadership, Adaptability, Mentoring, Time Management

LANGUAGES: English (Fluent)
